## CAREER OBJECTIVES

Highly motivated computer science graduate with a natural persistence for problem-solving, driven by a passion for web & software development and hands-on experience in related projects. Committed to continuous learning, professional development, and collaborative teamwork to deliver cutting-edge web applications. I have knowledge of popular framework React and experience with REST APIs.

## TECHNICAL SKILLS

**Expertise:** HTML5, CSS3, Bootstrap, Tailwind CSS, DaisyUI, JavaScript, ES6, ReactJS, REST APIs, Java Swing, MySQL, PostgreSQL

**Comfortable:** C/C++, Java, JWT, Axios interceptor, MongoDB, Microsoft SQL Server, Elasticsearch, Kibana, Docker, Python, Golang, Begeo

**Familiar:** TypeScript, ExpressJS, NodeJS, NextJs, Mongoose, Oracle, Django

**Developer Tools:** NetBeans, Chrome DevTools, Figma, Firebase, Netlify, Notepad++, Vercel, Visual Studio Code

**Interpersonal:** Communication, Team Lead

## EXPERIENCE

### W3 Engineers Ltd

Software Engineer Intern

Aug 2023 - Nov 2023

Basundhara R/A, Dhaka

- Built a back-end database service using Beego Api & PostgreSQL and implemented a front-end UI using Beego framework to support future changes.
- Did web scraping with selenium.
- Explored ways to visualize and send a daily report of test results to team members using Microsoft Teams.

## PROJECTS

### Sportify

[Demo](#) | [GitHub](#) > [Client](#) | [Server](#)

Where students can find and enroll sports classes with expert instructors

- Three user panels (admin, instructor, and student) with specific roles and permissions for each.
- Ability for admins to approve/deny classes added by instructors with feedback; instructors to add/update classes; students to select and make payment for their classes.
- Implemented user authentication, JWT, and Axios interceptor for enhanced security.

**Technologies:** React.js, React Router Dom, Firebase, Express.js, Node.js, JWT, Axios interceptor, Stripe, MongoDB, Git

### Toy Universe

[Demo](#) | [GitHub](#) > [Client](#) | [Server](#)

Where admins manage toys, users search and browse.

- Toy universe is an online based toy selling website.
- But for now it is for admin side. Admins can add, update, and delete toys.
- Without user authentication, an admin can not see toy details or add any toys.

**Technologies:** React.js, React Router Dom, Firebase, Pagination, Express.js, Node.js, MongoDB, Git

### The Kitchen Concept

[Demo](#) | [GitHub](#) > [Client](#) | [Server](#)

Exclusive recipes from talented chefs, for authorized users

- Interactive and engaging design with various sections like featured chefs, recipe images, and a feedback section to enhance user experience.
- The view recipes button allows users to see all information about a chef and all the recipes they have made.
- The prevention of users from clicking the favorite button twice ensures data accuracy and prevents unnecessary duplication.

**Technologies:** React.js, React Router Dom, Firebase, Express.js, Node.js, Git

## EDUCATIONS

### Ahsanullah University of Science and Technology

Bachelor of Science in Computer Science and Engineering

Dhaka

Jan 2023

### Govt. Tolaram College

Dhaka Board, Science

Narayanganj

June 2017
